

## **Solidarity with Venezuela**

### **Coward US aggression against Venezuela**

#### **SEPLA DECLARATION**

This morning of Saturday, January 3, 2026, US imperialism bombed Venezuela.

After a criminal offensive, including a naval siege under the unsustainable pretext of combating drug trafficking, the United States attacks Venezuela.

SEPLA denounces the aggression and rejects the coward imperialist aggression against Venezuela.

We call for the solidarity of the peoples and governments of the world, to mobilize and demand an end to the aggression.

The United States intends to take Venezuela's oil and hinder any autonomous attempt at political construction, while trying to assert its right to intervene in the region, according to its recent foreign security policy document.

***No to US intervention, yes to the autonomy of Venezuela and every Nation threatened by the US!***

***Nuestra América, January 3, 2026.***
